

# Maintenance-Free, Eco-Friendly Benches and Picnic Tables.

Made from 100% British Recycled Plastic.

A recycled plastic bench or picnic table can look just like wood, but performs like plastic, and will last at least 5 times longer with no recurring maintenance bills.

## Key Advantages

- No splinters
- More hygienic and easy to clean
- Requires no painting or toxic preservative
- Does not chip, crack or warp
- Vandal resistant

## Stretch your budget further

The cost of maintenance, repair and replacement are a recurring feature of yearly expenditure, you should be getting more for your money.

## Free outdoor furniture

Your initial outlay on recycled plastic outdoor furniture is recovered in just 5-7 years, after which you will continue to enjoy what will then have become **free outdoor furniture** for many more years.

## Avoid the jaded look

It's amazing how quickly wooden outdoor furniture begins to degrade, bringing an undesirable run down look to your facility.

Recycled plastic no longer looks or even feels like cheap plastic, and is not just an eco-friendly gesture, but a sensible future-proof investment.

“I am extremely happy with my new bench - it feels so solid compared to my previous wooden bench - which didn't last because I didn't 'treat' it.... with this one I don't have to!

**Customer service is excellent and extremely friendly, and it is nice to be eco-friendly too! ”**

Clare, Hertfordshire
